

Stuv Micro Mega Woodburner

Stove: Stuv Micro Mega

Customers aspirations: A modern hole in the wall fireplace which will create a wow factor with a sleek designer feel. The mirror must be able to sit above the fire

Special requirements: Construct Chimney Breast and bespoke wood store. Stove frame to match wall colour. Slate mantel.

To create the final effect required by our clients we worked through a number of different designs using a variety of wall mounted fires. After several visits to the showroom to discuss the arrangement of the fire and mirror the finished effect using the [Stuv Micro Mega](#) definitely creates the wow factor required!
