

Jotul F370 Series - 373

The award winning series that incorporates innovative shapes with diverse materials. The top-of-the-range F373 model has an optional 360° turntable as well as large side glass to give an uninterrupted view of the flames. There are 4 other main models with options such as cast iron shelving beneath to full glass sides and front. The Jotul Heat Storage System is also an option that creates the High Top models to allow for smoother heat emission.
