

Jotul 305

The horizontal design makes it easy to place logs and provides a rapid heat transfer to the room. Integrated convection reduces the distance to combustible materials at the rear. With Norwegian designers Anderssen & Voll, we have made a stove which merges 160 years of heating experience with timeless design.

Specifications

Height: 850

Width: 560

Depth: 420

Output: 35kw - 7kw

Efficiency: 79
