

## Gazco Reflex 75T

The Reflex 75T gives you an array of style options from a framless hole in the wall gas fire to a gas fire with full stone surround - and everything in between!

With a selection of internal lining options this really is the opportunity for you to design exactly the fire you've always wanted.

With a conventional flue output of 8kW and a balanced flue output of 8.3kW the balanced flue option has an efficiency rating of A.

So whether you want an ultra modern sleek fireplace with effective black gloss panels or traditional stone fireplace with brick effect panels, the Reflex 75T gives you all the options you need.
